Education:

Government Polytechnic, Awasari (Pune), Maharashtra
Diploma in Information Technology [92.50%]

Aug 2021 – June 2024

D.Y. Patil College of Engineering, Akurdi, Pune, Maharashtra
Bachelor of Engineering in Information Technology [9.0]

Nov 2024 – June 2027

Skills:

Languages: C, C++, Java, JavaScript, Python,

Frontend: React.js, Next.js, Tailwind CSS, Sass, Framer Motion, Redux

Backend: Node.js, Express.js, REST APIs, WebSocket's

Databases: MongoDB, PostgreSQL, Database Indexing, Query Optimization

Cloud & DevOps: AWS (EC2, S3), Docker, GitHub Actions, Vercel, Netlify, Render

Tools & Testing: Git, GitHub, Postman, npm

Competitive Programming: [LeetCode](#) , [GFG](#)

Experience:

Software Development Intern

Alter TechSoft Pvt. Ltd. | Jun 2023 – Jul 2023

- Worked on real-world software development projects, contributing to application development and feature implementation
- Gained hands-on practical experience in debugging, testing, writing clean, and maintainable code
- Collaborated effectively closely with team members to understand project requirements and workflows

Cyber Security Intern

Cyber Police Station, Pimpri Chinchwad | Jan 2026 – Feb 2026

- Assisted in real-world cybercrime investigations, contributing to technical analysis and evidence identification
- Supported law enforcement by providing technical insights and cybersecurity expertise during active cases
- Played a key role in identifying critical digital evidence, improving investigation efficiency and outcomes

Full Stack Web Development Intern

SK Children Foundation (NGO / Social Services) | Jan 2026 – May 2026

- Developed and maintained web application features to support NGO operations and user engagement
- Collaborated with team members to build responsive and user-friendly interfaces
- Contributed to improving website performance and functionality for real-world usage
- Worked in a structured environment, enhancing team collaboration and development workflow skills

Technical Associate

Entrepreneurship Development Cell (EDC), DYPCOE

- Developed and maintained the EDC website and enhancing usability and performance while supporting events
 - Collaborated with team members to manage technical operations and ensure event execution
-

Projects:

Multi-UI - Animated React Component Library

Tech Stack: Next.js, TypeScript, Framer Motion, React

- Developed a library of 30+ reusable, production-ready animated UI components including buttons, cards, modals, loaders, and accordions for modern React applications
- Designed a TypeScript-based component structure ensuring strong type safety and better code maintainability
- Enhanced animation performance using Framer Motion with GPU-accelerated techniques, achieving smooth 60fps and reducing UI lag by 25%
- Created detailed documentation with live code demos and interactive previews, enabling seamless integration into real-world projects

Schedra - Project Management & Scheduling Platform

Tech Stack: React, Tailwind CSS, Recharts, Node.js, Express, MongoDB, REST Api, Context-Api

- Built Schedra, an AI-powered project management platform that predicts risks such as cost overruns and delays using Google Gemini AI, enabling proactive decision-making
- Developed a full-stack application using React, Node.js, Express, and MongoDB, with a scalable and flexible architecture for real-world project data
- Implemented AI-driven workflows to analyse user inputs and generate real-time insights visualized through interactive dashboards and charts
- Designed a secure and reliable system with server-side API key handling, stateless REST APIs, and fallback mechanisms to ensure uninterrupted functionality

Evento - A Campus Event Application

Tech Stack: React Native, Expo, TypeScript, Supabase, Zustand, Gemini AI, Expo Router, Lucide Icons

- Developed a production-ready mobile app for campus event management with real-time event discovery, registration, and updates
- Built using React Native + Expo with TypeScript, integrating Supabase (PostgreSQL) for authentication, real-time data, and secure storage
- Implemented key features like QR-based attendance tracking, digital certificates, and live notifications, improving event coordination and user engagement
